## FEATURED SPEAKER:

**David J. Anderson**, author of *Agile Management for Software Engineering*

David J. Anderson works as a Program Manager with Microsoft's Developer Tools Division best known for its Visual Studio range of products. David is the process authority for the MSF (Microsoft Solutions Framework) for CMMI Process Improvement methodology. He teaches guidance and best practices in project and functional management for software engineering.

David was a member of the team that created the agile software engineering method, Feature Driven Development in the late 1990's. He is a popular conference speaker and author. He has published several hundred articles online. Prentice Hall PTR published his first book, "Agile Management for Software Engineering" in 2003. His work is focused on the teachings of Eli Goldratt, W. Edwards Deming and other thought leaders in management science to the successful delivery of software projects.
